# Lane Powell Named Among Top 50 Construction Law Firms by Construction Executive

## Awards & Honors

*Construction Executive* has recognized Lane Powell in its inaugural “The Top 50 Construction Law Firms” list. Lane Powell is one of just five Pacific Northwest firms ranked, and also received special recognition for having “the oldest operating construction law practice” on the list.

Lane Powell’s Construction Team works closely with design professionals, public and private project owners, developers and contractors on every aspect of complex construction and built environment projects – from contracts to financing to finishing touches, and where it arises, dispute resolution. The Team has also received honors from *Chambers® USA: America’s Leading Lawyers for Business* and *U.S. News – Best Lawyers®* annual “Best Law Firms” survey.

*Construction Executive’s* “The Top 50 Construction Law Firms” ranking was developed by asking hundreds of U.S. construction law firms to complete a survey measuring headcount, construction practice-derived revenue, the percentage of the firm’s total revenue derived from its construction practice, the number of states in which the firm is licensed to practice, and the year in which the construction practice was established. The ranking was determined by an algorithm that weighted the aforementioned factors in descending order of importance.
